The screenshot shows the Web of Science search interface. Red boxes and lines highlight specific features: a box around the 'DOCUMENTS' and 'RESEARCHERS' tabs; a box around the search filters 'Search in: All Databases' and 'Collections: All'; a box around the 'DOCUMENTS' and 'CITED REFERENCES' tabs; a box around the 'Topic' dropdown menu; a box around the '+ Add row' and '+ Add date range' buttons; and a line pointing from the 'Search' button to the 'Select All' checkbox in the right sidebar.

# Quick Facts on Journals ...

- **Volume:** A volume refers to the number of years a journal has been in publication. For example, if a journal is in its fifth year of publication, the volume number would be "Volume 5."
- **Issue:** An issue refers to the specific number of the journal within a volume. For example, if a journal is published monthly, there would be 12 issues in a year, numbered "Issue 1," "Issue 2," and so on.
- **Number:** The "no" you mentioned is likely referring to the issue number of a journal.

## Journals vs Magazines

- Journals are typically aimed at a specific academic or professional audience, while magazines are usually aimed at a general audience.
- Journals usually contain scholarly articles and research, while magazines typically also contain news, opinion pieces, and feature articles on a variety of topics.
- Journals are usually published in a scholarly format, with citations and references, while magazines are usually published in a more popular format, with colorful graphics and shorter articles.
